

«Catch the Dots» - unique Dots-design game is available now on the Android Market.

A challenging game which will test your attention and reaction skills is now landing on all Android devices!

The game was released at 04/03/2015 as Perfect Oval first game. [Catch the Dots](#) introduces unique gameplay and a worldwide challenge for the title of the «Best Catch the Dots Player». The good difficulty-increasing system will always add new original features as player progress through game. The great visual customization, which affect whole game, won't let you get bored! The game has no in-app purchases, so there are no «pay to win» situations. Catch the Dots is fully integrated with Google Play Services – players can beat their friends at leaderboards and gain Google Play achievements.

Catch the Dot's gameplay is based on the player's reaction and future-thinking skills. Controls are very simple – just tap the screen to change main circle color and catch dots with the same color. After each game player gains coins. These coins can be spent on unlocking new skins to completely change the whole game appearance.

The game is completely free. Catch the Dots is available worldwide, in Russian and English languages.

«It's our first game, so we excited – will people like it or not. We already have many ideas for new gameplay features, that we will brought to life if our game will be popular» - said the Stanislav Babaev, the Game Designer of this game.
